Funerals attended promptly, with Hearse and Carriages.

**J. H. TUTTLE.**

Corner Main and Third Streets, Cheboygan, Mich.

**AYER'S Cherry Pectoral.**

No other complaints are so insidious in their attack as those affecting the throat and lungs; none so trifled with by the majority of sufferers. The ordinary cough or cold, resulting perhaps from a trifling or unconscious exposure, is often but the beginning of a fatal sickness. AYER'S CHERRY PECTORAL has well proven its efficacy in a forty years' fight with throat and lung diseases, and should be taken in all cases without delay.

**A Terrible Cough Cured.**

"In 1857 I took a severe cold, which affected my lungs. I had a terrible cough, and passed night after night without sleep. The doctors gave me up. I tried AYER'S CHERRY PECTORAL, which relieved my lungs, induced sleep, and afforded me the rest necessary for the recovery of my strength. By the continued use of the PECTORAL a permanent cure was effected. I am now 62 years old, hale and hearty, and am satisfied your CHERRY PECTORAL saved me."

HORACE FAIRBROTHER.  
Rockingham, Vt., July 15, 1882.

**Croup.—A Mother's Tribute.**

"While in the country last winter my little boy, three years old, was taken ill with croup; it seemed as if he would die from strangulation. One of the family suggested the use of AYER'S CHERRY PECTORAL, a bottle of which was always kept in the house. This was tried in small and frequent doses, and to our delight in less than half an hour the little patient was breathing easily. The doctor said that the CHERRY PECTORAL had saved my darling's life. Can you wonder at our gratitude? Sincerely yours,

MRS. EMMA GEDNEY.  
129 West 128th St., New York, May 10, 1882.

"I have used AYER'S CHERRY PECTORAL in my family for several years, and do not hesitate to pronounce it the most effective remedy for coughs and colds we have ever tried."

Lake Crystal, Minn., March 13, 1882.

"I suffered for eight years from Bronchitis, and after trying many remedies with no success, I was cured by the use of AYER'S CHERRY PECTORAL."

JOSEPH WALDEN.  
Byhalis, Miss., April 5, 1882.

"I cannot say enough in praise of AYER'S CHERRY PECTORAL, believing as I do that but for its use I should long since have died from lung troubles."

PALESTINE, TEXAS, April 22, 1882.

No case of an affection of the throat or lungs exists which cannot be greatly relieved by the use of AYER'S CHERRY PECTORAL, and it will always cure when the disease is not already beyond the control of medicine.

PREPARED BY

**Dr. J. C. Ayer & Co., Lowell, Mass.**

Sold by all Druggists.

**Dr. J. C. Ayer & Co., Lowell, Mass.**

Sold by all Druggists.

**London from a Balloon.**

The large wood engraving just published by the proprietors of the London Graphic representing a view of the metropolis is peculiar, not only on account of the picture having been taken from a balloon, but for the reason that it is the largest wood engraving hitherto executed. The block upon which the picture has been engraved measures 44 inches by 33 inches, thus containing 1,452 square inches of surface. It is composed of 176 pieces of fine box-wood, and its weight is no less than fifty-six pounds, seven pounds of which is represented by 314 brass bolts. The block was manufactured by Robson J. Scott of Whitefriars street. By means of electrotyping this large engraving is multiplied any number of times, thus preserving the original engraving, and enabling any number of presses to work off the copies required. How necessary this has become to meet the demand for good illustrations is exemplified by the fact that no less than 500,000 copies of the last Christmas number of the Graphic were sold. What an advance this is on the wood engraving of less than a century ago is shown by the following facts: Thomas Bewick, the reviver of wood engravings in England, was born in 1753 and died in 1823. The block on which his largest work was executed measured only 9½ inches by 7½ inches. The subject was the famous "Chillingham Bull" and a few copies were taken, owing to the fact that the block only remained in a perfect state a very short time. Dr. Alexander Anderson, the father of American wood engraving, was born in 1775 and died in 1850. His largest work was executed in 1790, and was upon a block which was 36 inches by about 12 inches. "W. J. Linton, in his 'History of wood engraving in America,' speaks of it as 'indeed a remarkable work.' The subject was a human skeleton. Less than a dozen proofs were taken from this block, the printer destroying it, owing probably to its having been imperfectly made. The manufacture of blocks for wood engraving is only second in importance to the engraving itself. The perfection of the engraving depends upon the soundness of the block, as the stability of the finest architectural structure depends entirely upon its foundation.—London Telegram.

**THE VOICE OF LABOR.**

Straws Showing How the Current is Setting in New England.

A MANUFACTURER AND HIS EMPLOYEES.  
Boston Advertiser.

Up in Cherry Valley in Worcester, is a manufacturer who was the Democratic candidate for the state senate last year. This year he says he is going for Blaine and will take a hundred Democratic voters with him.

THE EXPRESSMEN.  
Boston Journal.

The expressmen, it is fair to assume, represent a good average of the voters, being wide awake, practical and intelligent men. Their organization took a vote with the following result: Blaine 67; Cleveland 32; Butler, 10.

**THE STONE-CUTTERS.**

An employer of men in a stone yard in Quincy took the political preferences of fifty-six men in his employ, mostly Irishmen of the best class, viz., skilled workmen, with the following result: For Blaine and Logan, 54; for Cleveland and Hendricks, 2.

**THE WORKMEN.**

A Republican in a suburban town said: I went into a manufacturing establishment in my neighborhood Monday to see if there was any truth in the reports of changes to Blaine and Logan. In response to my inquiry of a foreman, whom I know, he said that there were twelve men in that room and seventeen in the next, who usually vote the Democratic ticket, who have declared they will vote for Blaine.

**Some New York Straws.****THE IRON WORKERS.**

The New York Star (Dem.)

Wagner & Pfeiff, iron machine manufacturers at No. 22 Eldridge street. The firm employs at present fifty-six men, all Germans, of whom a great many are skilled mechanics. The result of the canvass was as follows:

For Blaine.....20  
For Butler.....6  
For Cleveland.....6  
Non Committal.....2

The others have not been naturalized yet and cannot vote.

The iron factory and the shops of McCollum & Parr, Nos 40 to 46 Eldridge street.  
For Blaine.....24  
For Butler.....9  
For Cleveland.....8

**THE MARKETMEN**

The result of the canvass among the men employed about Washington Market was as follows:

For Blaine.....66  
For Butler.....29  
For Cleveland.....14  
Non Committal.....9

**THE BRICKLAYERS.**

At the conclusion of the regular business in the bricklayer's meeting at No. 208 Eighth Avenue, a reporter made a canvass among the men present to ascertain their Presidential preferences. The result of the canvass was:

For Blaine.....23  
For Butler.....20  
For Cleveland.....6

**THE BUILDERS.**

Between Forty-fifth and Forty-sixth Streets, on Third Avenue, Mr. Thomas B. Gilbert is changing a row of houses into flats. There are about 150 men employed about the premises.

For Blaine.....68  
For Butler.....30  
For Cleveland.....22  
Non Committal.....8

The citizens of Irish extraction were especially pronounced in their opposition to Cleveland.

**OLD BRICK STORE.**
